MISURATA FREE ZONE

To Whom it May Concern,

We are very pleased to fully support the organization of the upcoming "Misurata Energy & Business Summit" to take place in November of 2026 in Misurata, Libya.

We will be working in close partnership and cooperation with IN-VR to develop a fruitful high-level event for the national and international logistics, energy, financing and overall business communities. We are happy to confirm that this will be the only exclusive official event hosted by Misurata Free Zone in the city of Misurata with the aim of sharing existing and upcoming business opportunities in the projects that will be shaping Libya's future.

This initiative is crucial to further develop our country's energy and development plan, including trade and logistics, exploration and production activities, human capital development initiatives, supporting infrastructure, as well as critical projects to integrate Libya in the Mediterranean trading flows and world energy security corridors.

We invite our esteemed partners to support this initiative and to benefit from this exposure in order to attract new business opportunities into Libya as well as gladly invite international stakeholders to actively participate in this annual platform of national interest.

We are looking forward to welcoming energy operators and service companies, investors and other industry executives to this highly important summit in Misurata.

Eng. Ayman Humaida Eldarwesh
General Manager
