

## Uniquely Knitted Process Groups

Uniquely Knitted Process Groups are facilitated support groups for people facing infertility.

They offer a safe space to talk, connect, and begin to heal. Based on evidence-based mental health practices and guided by trained professionals they improve mental health outcomes by:

**Reducing isolation** through honest, shared experiences.

Providing space to **process hard emotions like grief, fear, and trauma.**

Building **emotional** and **relational strength** that lasts **beyond infertility.**

**Would you consider sponsoring our process groups and bring hope and meaning back to someones life?**

## Sponsorship Opportunity
