## Gala Lab Signs Online Publishing Agreement for Rappelz

December 4, 2025

Gala Lab Corp. (CEO Hyunsu Kim) announced that it officially signed a publishing agreement with BEST KIRIN GLOBAL on November 20, 2025, for the dark fantasy MMORPG 'Rappelz Online', which it developed and currently is providing services for.

Through this agreement, BEST KIRIN GLOBAL will be solely responsible for the relaunch and service operation of 'Rappelz Online' in the Taiwan, Hong Kong, and Macau regions. The two companies have already established a close cooperative relationship through the 'FlyFF Online Publishing Agreement' signed on October 29, 2024, and plan to actively pursue successful service establishment and localization efforts in these regions based on this foundation.

'Rappelz Online' is a unique dark fantasy MMORPG featuring an original creature growth system, intense combat action, and diverse growth elements. Since its launch in the mid-2000s, it has maintained a steady user base and high brand recognition in the global market.

BEST KIRIN GLOBAL aims to provide an optimized gaming environment and stable service operations tailored for users in the Taiwan, Hong Kong, and Macau regions, leveraging its years of local service experience and extensive publishing capabilities.

A Gala Lab representative stated, "We expect this collaboration will provide Rappelz Online with an opportunity for a new leap forward in the local market," adding, "We will do our utmost to deliver a more refined service through organic cooperation between the two companies."

### About BEST KIRIN GLOBAL

BEST KIRIN GLOBAL operates the online game platform **3975.com** (<http://www.3975.com/>), primarily targeting the Chinese-speaking region, and is a leading platform company actively involved in game publishing and development. It has published renowned Korean MMORPGs such as Legend of Mir, Millennium, and

Cross Gate, maintaining ongoing relationships with Korean game developers. It is also collaborating with Gala Lab on mobile game development, and this publishing agreement is expected to further strengthen the cooperative relationship between the two companies.
