## Gala Lab Signs Two FLYFF Mobile-Related Contracts with BEST KIRIN GLOBAL

December 11, 2025

Gala Lab (CEO Hyunsu Kim) announced that it has signed two separate agreements, distinct from the existing contract, with BEST KIRIN GLOBAL LIMITED regarding the mobile title '飞飞 : 重逢(FLYFF: Reunion)', based on the global MMORPG IP 'FLYFF'.

First, through a Supplementary Agreement supplementing the existing contract signed on June 8, 2023, Gala Lab granted BEST KIRIN GLOBAL exclusive service rights in China for '飞飞 : 重逢' and clarified the conditions for expanding the service region. Under this Supplementary Agreement, BEST KIRIN GLOBAL will have the exclusive right to service '飞飞 : 重逢' within China for a period of two years, from June 25, 2025, to June 24, 2027. During this period, the launch of other FLYFF mobile games based on the same IP within China will be restricted, with exceptions applying to matters already in progress prior to the signing of the agreement. Additionally, Korea and Japan have been added as new service regions where BEST KIRIN GLOBAL will be granted service rights for three years following commercialization, supplementing the existing contract regions of Mainland China, Taiwan, Hong Kong, and Macau.

Official service details within China can be found on the page below.

Separately, Gala Lab has signed an 'EXCLUSIVE “飞飞 重逢 Mobile” LICENSE AND DISTRIBUTION AGREEMENT' with BEST KIRIN GLOBAL, establishing a structure where Gala Lab participates as the global publisher for '飞飞 : 重逢'. Under this agreement, Gala Lab will be responsible for publishing and distribution in the global market for three years following commercialization. The initial service languages will be English, German, French, and Thai. Additional language expansions will proceed in stages through mutual agreement between the two companies.

Through these two agreements, Gala Lab has established a dual business structure: as the IP holder, BEST KIRIN

GLOBAL will exclusively operate the service in the Chinese market, while Gala Lab will directly participate as the publisher in the global market. Gala Lab plans to sequentially launch the service in each region according to their respective commercialization schedules.
