Meet our Solutions Consultant Team

Achieve business outcomes through intelligent, AI-powered design

trengo

Turn complexity into confidence

We turn your business goals into scalable, AI-driven solutions in Trengo that streamline your workflows, increase team efficiency, and drive higher conversions.

You get practical, tailored solutions that support your operations, scale with your growth, and deliver measurable business impact — from smarter automation to seamless integrations that make your customer communication more effective.

How we support you

AI Agents

Design and deploy intelligent agents that drive real results by automating conversations, decisions, and daily operations.

AI Journeys

Create fully personalized customer journeys that increase engagement and revenue through smart, scalable automation.

Custom Integrations

Integrate Trengo with your core systems, data, and third-party tools to unlock faster, more effective workflows.

Optimization & Scale

Continuously optimize automations and performance with solutions built to scale alongside your business growth.
