

About Us

Transforming Organizations with Talent and Technology

TECKpert connects public sector organizations with the tech talent, services, and technologies needed to address modern challenges and drive secure operational efficiency. Our expertise spans IT staff augmentation, software modernization, and digital transformation, providing agencies with the tools to enhance their capabilities, secure critical infrastructure, and achieve mission-critical objectives. By integrating innovative technologies around AI, we help government agencies modernize workflows, improve efficiency, and secure their infrastructure and applications while navigating the complexities of today's digital landscape.

Services

Where Modernization and Innovation Meet to Drive Mission Success

IT Staff Augmentation	At TECKpert, we recognize that securing the right talent is essential for government agencies to achieve their mission-critical objectives. Through our IT Staff Augmentation services, we streamline the process of recruiting, vetting, and managing skilled IT professionals for short and long-term projects.
Website Design and Development	TECKpert delivers modern, secure, and accessible websites for federal, state, and local government agencies, as well as enterprise organizations. We specialize in building and modernizing public-facing digital platforms on FedRAMP-authorized content management systems.
Municipal ERP Total Transformation	Our Solution provides local governments with comprehensive support from initial assessment to final implementation of ERP systems. Tailored specifically for municipal needs, our services ensure seamless integration, modernization, and optimization of your ERP and departmental applications.
Software Development & DevSecOps	We offer a dynamic solution tailored to the unique needs of government agencies at state and local levels. Our in-house teams specialize in executing software development projects with precision and efficiency, leveraging our internal staffing capabilities to assemble the ideal teams for each project.

Core Capabilities: *Digital Transformation, Website Development, Software Development, Artificial Intelligence, AI Software Modernization, DevSecOps, Cybersecurity.*

Key Achievements

Modernized FirstNet.gov Drupal website for the US. Department of Commerce.
Successfully delivering IT Staff Augmentation services across multiple contracts for state and local agencies in Florida, with a combined contract ceiling exceeding \$300 million.
Led the assessment and implementation of the design for the Digital Transformation for two Florida municipalities, modernizing ERP, Finance, HR, and other key departments.
Provided Software DevOps for local Florida county using Microsoft PowerApps , Power Automate, and SharePoint to streamline workflows and enhance team collaboration.
Built a web services application framework using AWS (Cognito, RDS, Lambda) with NodeJS.
