

Integration your AFAS accounting with Zero Friction

When your invoicing processes run smoothly, you can best keep track of your accounting. That's why we now offer a handy integration with AFAS. This collaboration helps simplify your financial processes, reduces manual work, and ensures that your accounting is accurate.

"Thanks to the integration with AFAS Online and Zero Friction, all accounting codes are mapped in Zero Friction, and invoice lines are automatically imported into AFAS. No more time wasted on manual exports."

Why choose this integration?

Automated data synchronization: Automatically transfer billing information from Zero Friction to AFAS, ensuring your accounts are always accurate and up-to-date.

Increased efficiency: Save time by reducing the need for manual data entry and reconciliation. Your invoicing and accounting processes are integrated, resulting in a smooth workflow.

Enhanced accuracy: Minimize the risk of human errors in financial data, leading to more reliable accounting records.

Scalability: Both Zero Friction and AFAS are designed to grow with your business, providing robust solutions for your expanding needs.
