

SMS reminders for collection cycles

With our SMS communication integration, you can reduce manual tasks like phone calls by sending invoice reminders via SMS. Customers will receive an SMS reminder at the times you choose.

"It's easy to overlook an invoice. Customers now receive an SMS reminder for outstanding invoices. With the handy link to the portal, they can pay quickly, and the collection process is resolved swiftly."

Why choose this option?

Read faster – over 90% of SMS messages are opened within minutes.

Less intrusive – no missed calls or voicemails, just a message that consumers can read at their convenience.

Cheaper & scalable – one SMS costs a fraction of a phone call. SMS messages are automatically sent from Zero Friction, reducing manual work.

Traceable & efficient – the message is in black and white and can include a direct payment link.
