

Bottom Outlet Cap

Precision-engineering for faster, easier repairs and commodity change

The team at McKenzie Valve is proud to offer our Bottom Outlet Cap, engineered for secure closure and reliable protection in pressure tank car applications. Designed to safeguard the bottom outlet during transport and service, this cap provides durable construction, dependable sealing, and compatibility with a wide range of tank car configurations.

Technical Specs

- 4" DOT threads
- Cap materials: 316 SST, CD4MCU SST, ductile iron, corrosion tested SST, aluminum
- Plug materials: 316 SST, 416 SST, carbon steel, aluminum, nitronic 60
- Chain materials: carbon steel, SST

Benefits

- Multiple chain lengths
- Multiple chain/plug connection methods
- Heavy hex option on cap
