## What I already know:

- The seven continents and five oceans of the world.
- The location of some countries, including the UK.
- The eight points of a compass.
- The physical and human features of Plymouth and Dartmoor.
- The location of major rivers and seas around the UK..

## Enquiry questions:

- What places can I find in the UK?
- What is a county in England?
- What are the human and physical features of Eggbuckland and Devon?
- What is the landscape of the South- West like?
- What do people do for work in the South- West and the Pyrenees?
- What places can I find in Europe?
- What are the physical features of the Pyrenees?
- How were the Pyrenees mountains formed?
- How does the climate of the Pyrenees compare to SW England?

## New knowledge:

- The South- West of England is a region of seven counties, including Devon and Cornwall.
- The South- West is the warmest part of the UK.
- The Pyrenees are a mountain range between France and Spain.
- Mountains are a natural part of the landscape, with steep slopes.
- Mountains are formed by the long-term movement of tectonic plates.
