

Jussi Karro

Product & Visual Designer

I'm a product and visual designer with over 17 years of experience across digital products, UI design, visual identities and graphic design. In recent years, my work has focused increasingly on SaaS and mobile products, from design systems and user interfaces to prototypes and implementation.

I work closely with developers and clients, staying involved during development to make sure the final product works and feels as intended.

Work Experience

Tmi Jussi Karro

Jun 2012 – Present **Product & Visual Designer**
