

# Patient Informed Consent

**Notice:**

We use a tool called Lyrebird to document your consultation. Lyrebird allows us to focus on you during the appointment, rather than spending time taking notes. It helps us provide more accurate and efficient care.

Your privacy and security are our top priorities. Lyrebird securely encrypts your data and complies with strict confidentiality standards. The information recorded is used only to support your care and will not be shared with anyone outside your healthcare team without your permission.

By signing below, you give your consent for us to use Lyrebird during your consultation.

**Name:** \_\_\_\_\_

**Date:** \_\_\_\_\_
