Know Your Trainer

Sivakumar Reddy, founder of JoinDevOps, is a seasoned DevOps expert with over 12 years of experience. He has trained over 6,500 students through real-world, project-based learning that meets corporate standards. Known for his hands-on approach, Sivakumar specializes in Jenkins, Docker, Kubernetes, Ansible, and Terraform. His practical training programs bridge the gap between academic learning and industry requirements, ensuring students are job-ready from day one.
