Trustpilot Rating

Sivakumar Reddy M.,

Founder & CEO of Joindevops & Linuscode Technologies,

He is an expert in strategic leadership with extensive experience in DevOps, cloud computing, Java development, IoT, telecom, banking, media, and R&D.

He specializes in modern cloud-native application development, guiding businesses through legacy-to-cloud migrations, and ensuring robust cloud security and cost optimization.

Sivakumar is also leader in integrating DevSecOps practices across projects and excels at optimizing performance in modern architectures. With a passion for exploring advancements in cloud technologies and modern development practices, he is committed to driving innovation and delivering cutting-edge solutions for his clients.

DECCAN Chronicle

This DevOps Course is for you, if you want to...

- ✓ Whether you're a **Fresher or Switching roles**, this Course helps you confidently step into a high-demand DevOps/Cloud career.
- ✓ Learn by working on real-world, production-level projects — so you can perform actual DevOps tasks from **Day 1** on the job.
- ✓ Perfect for **Engineers, Sysadmins, or Team leads** who want hands-on confidence, not just theory or fancy buzzwords.
- ✓ Fills your knowledge gaps and gives you the complete **big-picture** understanding to build real DevOps pipelines.
- ✓ Focuses on concepts behind tools, so you can adapt to any tech stack across companies or roles.
- ✓ Simplifies complex DevOps topics, offering practical, detailed training — no skipping steps, no blind copy-paste.
