

Reinforce Uptime: Traffic Security Package

**1****Dedicated IP for Domains**

Replace flagged IPs within one business day

2**Custom Assets Domain**

Ensure creatives never show up as blank red **X**s

3**Domain Uptime Monitoring**

Activate high-level monitoring on your domains

**What Are Blacklisted IPs?**

Blacklisting happens when your mail server IP or domain is associated with suspicious activity. If you get blacklisted, emails won't be received, links deactivate, and your creatives stop displaying.
