

Scale Your AI Companion Brand Without Interruptions

Ad network blacklists and rising CAC make paid traffic volatile for AI brands.

Everflow secures your revenue as you shift ad spend to compliant channels: review sites, creators, and media buyers.

How AI Companion Brands Can Scale Faster

💰 Match Payouts to Partner Types

Offer 30–40% recurring RevShare for review sites and flat CPA for paid media buyers.

🎯 Target High-Yield Channels

Focus on Tier-1 comparison blogs and native ads with cookieless direct linking.

🛡️ Protect Your Merchant Account

Enforce age-gates, block CSAM/likenesses, and auto-pause partners over 1% chargebacks.

⚙️ Automate Subscription Billing

Sync subscription renewals via Stripe, Chargebee, or webhooks to prevent attribution drops.

Launch, track, and scale an in-house partner program that turns creators and media buyers into predictable revenue.
