

Customer Value ✨

Profitability & Protection For Every iGaming Partner

Easily manage rolling balances, automate gameplay rewards, and filter out payout fraud to grow and protect your iGaming program's profits.

How iGaming Brands Level Up With Everflow

Native NGR Tracking

Calculate true Net Gaming Revenue in real time so payouts reflect actual profitability.

Negative Carryover Control

Roll over negative balances monthly to protect profits against player winning streaks.

Rule-Based Bonus Triggers

Trigger rewards for gameplay milestones and loyalty tiers to stop deposit-and-withdraw fraud.

Player Journey & Goal Tracking

Track player touchpoints and campaign goal progress in real time to maximize retention.

Track, automate, and scale your iGaming partner program with real-time player insights and complete financial control.
