Job Posting – Quality Assurance Specialist

Conquest Planning is a rapidly growing company in the financial technology space. Our innovative tool empowers users by making it simple to improve their client's financial outcomes using our highly intuitive interface. Our Mission is to one day make great financial advice available to everyone and improve financial literacy around the world. We are based out of Winnipeg, Manitoba and have team members located across Canada, the United States, and United Kingdom.

We are looking for a **Quality Assurance Specialist** /QA Tester to assess software quality through manual testing. You will be responsible for creating, building, and maintaining tests and reporting issues within our application. You will be local to Winnipeg. This is remote / work from home opportunity.

To be successful in this role, you will need to understand using API platform tools and cloud-base services, have a keen eye for detail, be able to think outside the box and possess excellent communication skills. If you are also competent in executing test cases and are passionate about quality, we'd like to meet you. Ultimately, you will ensure we are releasing a very high-quality product to our clients. You will have experience working within an agile environment.

Duties of the role include:

- Working within a team environment.
- Developing and improving quality assurance standards and company processes.
- Reviewing user stories with the Product team.
- Writing detailed test plans for Manual and Automated testing.
- Writing and executing test plans at an Epic level.
- Working with the Development Team to create tests at a Story level.
- Supporting the investigation of reported integration, user acceptance or production issues.
- Logging issues and reporting them to development.
- Executing test plans for development verification through all environments.
- Providing feedback to product owners or developers on design and user experience considerations.
- Developing and maintaining the regression test suite for our products.

Qualifications required:

- A university degree or college diploma in an applicable field.
- 3+ years of experience as Quality Assurance/ Tester role.
- Strong understanding of API endpoints and API testing.
- Basic understanding in working within cloud-based platforms such as AWS.
- Experience in testing with Postman.
- Experience writing / using formal test plans and creating test data.
- Proven ability to ramp up quickly on new technologies, languages, frameworks, and approaches.
- Competence with multiple web browsers and an understanding of their differences and issues.

- Strong analytical and problem-solving skills with attention to detail.
- Excellent communication and documentation skills.
- Ability to work collaboratively with team members.
- Skills in managing and prioritizing multiple projects and competing deadlines.
- Experience in the financial services industry an asset.
- Being bilingual is an asset.

What to expect:

- An inclusive culture comprised of extremely talented individuals.
- A leadership team with a proven track record of success.
- The opportunity to join a company as it expands across the globe.
- Competitive compensation.
- Generous benefits.
- Retirement allowance.

How to Apply:

If this exciting opportunity is of interest to you, please forward your Resume and Cover Letter with Quality Assurance Specialist in the subject line to human.resources@conquestplanning.com **by January 23, 2024.**
