

Environmental, Safety & Health Policy

Vision:

- A. To create and maintain an environment free from pollution and hazards, ensuring a healthy body and mind for all employees.*
- B. To contribute to a sustainable and eco-friendly future through social responsibility, innovation, and continuous improvement.*

Mission:

- A. Comply with all environmental, safety, and health laws and regulations, keeping in line with international trends to satisfy interested parties' needs and expectations.*
- B. Adopt the best environmental, safety, and health management systems to prevent pollution, protect the environment, and promote well-being.*
- C. Enhance risk assessment and continuously perform environmental, safety, and health audits to maintain a safe and healthy work environment.*
- D. Maximize energy saving, utilize resources efficiently, and promote ecological and environmental benefits.*
- E. Promote green products, research, and innovation to achieve a balance between economic growth and environmental protection.*
- F. Encourage active participation in environmental, safety, and health initiatives through effective communication and collaboration among all employees.*
