## Horse Stall Grid

Made in  
the US

Easy to  
Install

100%  
Recycled

Our **Stall Grid** Mats create a durable, comfortable surface that protects your horse's joints and encourages natural movement. They keep stalls clean and dry, reduce digging and soil compaction, and make daily care easier. Quick to install, they provide a practical, long-lasting solution for horse owners.

### *Product Specs*

LxWxH: 24" x 24" x 1"

Weight: 4.3 lbs

Material: Recycled Polypropylene

Color: Black

Safe Working Load: 6,000lbs

### *Installation*

Panels snap together easily without tools, letting you create a custom-sized stall floor in minutes.

### *Applications*

Perfect for a variety of equine spaces, these mats work in stalls, barns, paddocks, horse walkers, riding arenas, and round pens. They offer excellent drainage, resist weather and UV damage, and are compatible with regular bedding, providing a low-maintenance, safe, and comfortable floor wherever your horses go.
