ABOUT US

With innovative technology, rigid quality control, and highly regulated safety standards, **MatraX Tyres** has set its path to develop innovative, quality tyres for the UHP, SUV, 4x4 and PCR segments. The **MatraX Tyres** product range is set out to suit every need. Our protocol rests on four basic pillars that sustain our day to day work and vision, which is aimed at achieving customer satisfaction through: innovation, design, safety and trust.

A long history in designing, engineering, developing, manufacturing and global distribution lies behind the **MatraX tyres** brand. The innovative drive of the Alves Bandeira Group has been relentless since its very beginning over 50 years ago. The Group's core philosophy summarised through the motto, ENERGY THAT MOVES, sends out a clear message that it distinguishes itself by focusing on the essential harmony among client and product.

MISSION

To continuously work on developing the best tyres, and continue earning trust, by delivering innovation, and maintaining proximity with our customers and consumers.

VISION

To build the best tyres, exceed the expectations of our customers and consumers, by being world leader in tyre engineering, sustainable manufacturing, and distribution.

INNOVATION

We thrive on creating designs, processes and developing technologies that deliver the ultimate product and driving experience.

DESIGN

We endeavour with absolute passion to achieve cutting-edge road efficient designs.

SAFETY

Prioritising on maximum grip, assuring drivers safety and total control.

TRUST

How do we do it? We build what we envision for ourselves and share this with the world.

ULTRA HIGH PERFORMANCE

Experience unmatched speed and control with the **URCOLA+**, the ultimate UHP tyre for sports cars and high-performance sedans.

FEATURES

- Specially designed tread pattern to manage the demands of high-speed driving, ensuring optimal control and responsiveness.
- Thermal-resistant coating reduces heat build-up during high-speed driving, ensuring consistent performance.
- V-shaped tread blocks offer superior grip and excellent water drainage for wet and slippery roads.
- Equipped with AE (AcousticEase), an innovative internal layer that reduces road noise for a quieter, comfortable drive.

The **URCOLA+ SUV** is an ultra-high-performance tyre engineered to deliver sports-car precision, confident grip, and refined comfort on every journey.

FEATURES

- Optimised tread geometry and enlarged shoulders give precise steering and stable braking despite an SUV's higher centre of gravity.
- Heat-resistant cap-ply cuts temperature rise at sustained speed, maintaining tread stiffness and even wear.
- V-shaped blocks and four wide grooves deliver strong wet grip and fast water evacuation, lowering aquaplaning risk.
- Reinforced carcass with high-tensile belts, strong bead fillers, and extra sidewall plies boosts load capacity and guards rims against impacts.

Handling

Comfort

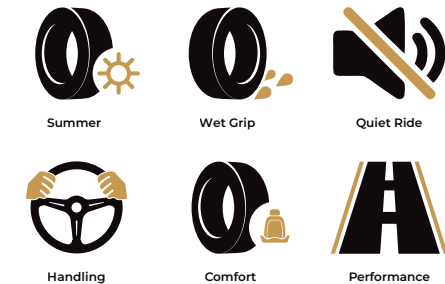

Performance

The **CAMARGA** is an ultra high performance tyre with excellent road grip while delivering a quiet and comfortable ride.

FEATURES

- Excellent cornering performance delivered by asymmetric pattern blocks inside and outside, both ensuring drainage, while the outside wide pattern increases ground pressure while turning.
- The central pattern rib is continuous, ensuring the stable handling performance of the tyre at high speed and in a straight line.
- Four wide drainage longitudinal grooves evacuate water efficiently under wet road conditions to prevent aquaplaning.

HIGH PERFORMANCE

The **ROMERO** is a high-performance tyre that is designed to provide drivers with dynamic handling, superior road grip, and an impressive blend of comfort and stability.

FEATURES

- Asymmetric pattern on both sides enhances cornering, with wide exterior design increasing ground contact for confident turns.
- Innovative compound and tread ensure superior traction on wet and dry surfaces for uncompromised performance.
- Balanced pressure distribution promotes even wear, durability, and excellent fuel efficiency.
- Carefully engineered tread patterns contribute to a serene driving experience, minimizing road noise for a smooth, quiet ride.

The **MIURRA** is a performance tyre designed for use on coupes and sedans in warmer weather conditions.

FEATURES

- A multi-pitch frequency conversion pattern design enables sound energy to disperse evenly to a wider frequency range for a more quiet driving experience.
- Built with angled tread blocks and a large footprint that widens contact with the surface to increase traction, acceleration, braking, and handling performance.
- The shoulder block placement with the special sipe design increases the cornering ability by providing additional biting edges.
- Wide grooves and open shoulders disperse water from the tyre to reduce the risk of hydroplaning in wet conditions.

HIGHWAY TERRAIN

The **DOME** delivers balanced performance, superior wet traction, versatile grip, and a quiet ride, making it ideal for SUVs.

FEATURES

- The optimized tread blocks ensure balanced performance and even wear, providing a smooth ride.
- Multiple wide grooves efficiently channel water away, reducing the risk of hydroplaning and improving safety on wet roads.
- The detailed sipe pattern delivers superior traction on various road surfaces, ensuring reliable performance in both dry and wet conditions.
- Specially designed tread elements minimize road noise, offering a quieter and more enjoyable driving experience.

The **VERAGUA SV** is a highway terrain all-season tyre designed for SUV drivers looking for traction and durability.

FEATURES

- Optimized variable pitch combination design reduces noise effectively and delivers a quiet driving experience.
- Superb controllability is achieved with the ribbed tread design, allowing the tyre to enhance its steering responsiveness and driving stability.
- Unique tread formula for durability ensures a greater tread life while providing excellent dry and wet braking performance.

4X4

The **VERAGUA ATX** is an all-terrain tyre engineered to deliver confident traction, rugged durability, and stable handling across both paved and off-road environments.

FEATURES

- Reinforced central rib pattern enhances steering stability and driving control while delivering strong traction on unpaved terrain.
- Zigzag groove design improves grip on both wet and dry surfaces, ensuring high-speed stability together with reliable braking performance.
- Interlocking tread block system increases tread rigidity in the contact area, enhancing vehicle handling, stability, and resistance against stone retention.
- Extended shoulder block and sidewall design improve durability while providing confident handling performance across challenging road conditions.

The **VERAGUA A/T** is an all-purpose tyre with interlocking tread design that performs well on dry, wet, muddy, or lightly snow-covered roads.

FEATURES

- Abrasion resistant sidewall, increased rubber thickness and a design that diverts invasive objects from damaging the sidewall.
- The 3D sipes maximize handling and traction by stabilizing the tread blocks and providing biting edges for light snow conditions.
- Indented shoulder design that allows for increased mud, snow and rock traction, especially in aired-down driving situations.
- Optimized tyre pattern shape uniformly distributes stress for longer more uniform wear.

Designed for adventurers, the **NAVARRA R/T** offers rugged durability with smooth on-road handling, ideal for pickups, SUVs, and 4x4s.

FEATURES

- Groundbreaking traction system that adapts to both on-road and off-road conditions, offering you unparalleled control.
- Specially formulated rubber compound balances grip and longevity for versatile driving conditions.
- Extra layers in high-wear areas for better resistance to cuts, punctures, and abrasions for lasting performance.
- Large edge lugs enhance traction in challenging off-road conditions, ensuring vehicle stability.

Conquer tough terrain with the **VERAGUA M/T** with gripping edges and extra reinforced sidewalls to reduce puncture risk.

FEATURES

- Strengthened compounds contribute to exceptional durability against cuts, chips, and scrapes.
- Reinforced shoulder and bold tread design deliver exceptional traction and protection from off-road impact.
- Enhanced block design increases off-road control and traction.
- Especially designed block edge quickly scatters sand, dirt, and gravel for impeccable off-road traction.

LIGHT TRUCK

The **COLMENAR** is a robust light truck tyre designed to deliver unmatched durability, efficiency, and safety.

FEATURES

- Dual-sided pattern enhances turning precision, with outer extensions for improved ground contact in light truck use.
- Reinforced construction withstands heavy loads, ideal for light trucks and commercial use.
- The innovative design minimizes rolling resistance for improved fuel efficiency and eco-friendly driving.
- Specially crafted tread patterns absorb road noise for a smooth, yet robust light truck tyre performance.
