

8TH EUROPEAN CONGRESS

On Eco-Plasturgy and sustainable, intelligent and safe Polymer materials

31 MARCH – 1 APRIL 2027

Fribourg, Switzerland

POLYMERIS is organizing the 8th edition of the S3 European Congress (Safe, Smart and Sustainable Materials), in partnership with Swiss Polymer Cluster and other European partners.

This new edition will bring together industrial companies, technical centres, researchers, universities, public authorities and European project stakeholders to address **the key challenges related to the transition towards more sustainable polymer, composite and elastomer materials.**

The programme will include **technical conferences, industrial case studies, European collaborative projects, networking opportunities and a technical site visit.**

This event is aimed at all types of players (start-ups, SMEs, ETIs, groups, academic laboratories, universities, technical centres, institutions).

**DON'T MISS THIS OPPORTUNITY TO CONTRIBUTE
TO THE DISCUSSIONS AND INNOVATIONS
SHAPING THE FUTURE OF SUSTAINABLE PLASTICS!**

WOULD YOU LIKE TO SPEAK AT THE CONFERENCE?

Please send us a summary of your proposal (max ½ page) by 30/07/2026.

Presentations may focus on innovation, R&D and R&I and industrialisation projects, or on accessible or shared technology platforms (tools and equipment).

- Project presentations (15' format)
- Poster

The number of presentations will be limited. Presentations will be selected on the basis of the innovative nature of the expertise proposed, its relevance to the day's theme and the clarity of the summary. If your proposition is accepted, the project will be selected either for plenary session or round table session.
