

EN-Force™ Expandable Liner Hanger

SAFE.SIMPLE.STRONG

Enventure's EN-Force Expandable Liner Hanger (ELH) represents more than two decades of expertise and advancement in solid-cone expandable technology. With a streamlined operational sequence, it minimizes non-productive time (NPT) and operational expense with superior reliability versus other liner hanger systems. Enhanced by five liner-top packing elements and optional metal to metal seals/anchors, hanging capacity is maximized and the risk of leakage is significantly diminished.

Superior to Conventional

- Simplified running procedure
- Impossible to drop liner from the running tools
- Ultimate hanging ability
- Highest pressure capacity

Bottom-Up Expansion

- No moving parts
- High torque rotatable
- Integrated hanger/packer/PBR
- Multiple expansion and release methods

EN-Force™ Expandable Liner Hanger Specifications

Liner Size	Base Casing	Burst (psi)	Collapse (psi)	Hanging Capacity (lbs)	Torque (ft-lbs)	PBR ID (lbs)	Max Flow Rate (bpm)	Max Temp (F)
7" 29#	9-5/8" 47#	17,190	13,870	600,000	48,100	7.000	6.0	350
7" 26#	9-5/8" 47#	17,190	13,870	600,000	48,100	7.000	6.0	350
7" 26#	9-5/8" 53.5#	17,190	13,870	873,000	50,000	7.000	6.0	350
5-1/2" 17#	7" 26#	15,900	12,400	320,000	20,000	5.125	2.5	350
5" 18#	7" 26#	15,900	12,400	570,000	20,000	5.125	2.5	350
