Introduction

Fort Capital – promoter background

Promoter group with a history of over 8 decades in capital markets

Successfully launched and exited fintech start-ups -
Wealthdesk & Quantech Capital to PhonePe (Walmart)

High commitment to quality and integrity

Focus on knowledge, research, experience and transparency

Headquartered at Mumbai and holding a fund licence in DIFC (Dubai) for global client expansion

Promoter group participation in funds

Key features

Investment objective

- To deliver superior risk adjusted returns exceeding the stated benchmark by constructing a diversified, very actively managed portfolio that capitalises on fundamental and tactical opportunities

Investment philosophy

- Quality at a reasonable price. Invest in quality businesses much below their intrinsic value

Investment style

- Top down, bottom up and broad based approach. Sector and market cap agnostic

Diversified approach

- Up to 30 40 stocks in a portfolio, at most 15% in a single stock. No single sector accounts for more than 45% of the portfolio

Cash management

- On an average 5 10%, enables us to seize promising opportunities when they arise. However , the actual cash balance may go below of above the stated range during extreme market movements

Target return

5-7%

Alpha over the benchmark
(NIFTY50 TRI)

The India Story

The India Story

India's Relative Resilience – Silver Linings Amidst the Storm

Low inflation –
room for Central
Bank to cut rates

Low current
account and
fiscal deficit

Low oil
prices

Low corporate
debt to GDP

Under-leverages
corporates

Healthy banking
balance sheets

Low trade with the US \$80
Billion (approx. 2.5% of
India's GDP)

Higher dependence on
domestic demand driven
sectors

Resilient economy and GDP forecast of 6.5%

Indian companies have started optimising their cost structure to
align with the new reality (e.g. Tata Steel)

The India Story

Strong tailwinds

Improving regulatory frameworks

Implementation of insolvency and bankruptcy code, real estate authority and Good and Services Tax

Ease of doing business – Stable government

India ranks 51st as per the Economic Intelligence Unit (EIU)
A stable and conducive political environment

Consumption led economic growth

USD 5.5 Trillion GDP by 2028^{4th}
Largest economy

FDI inflows

Increased FDI inflows

The India Story

Strong tailwinds

Demographic advantage

611 million under 25 years; 45% of the total population

New approach to new India

Make in India; Digital India – JAM Trinity; PLI schemes

Domestic inflows

Strong domestic investments have supported Indian markets. We believe that it will continue with monthly inflow of INR 40k crores

‘FIIs and FPIs may come and go but today the Indian retail investors have proven that any shock that may come in is now taken care of because of the shock-absorbing capacity the Indian retailer has brought into the Indian market’ – Nirmala Sitharaman

Investment Philosophy

Proven management teams which are ethical, aligned with minority shareholders in terms of value creation and have shown excellent execution and capital allocation track record.

We **avoid capital guzzlers**, rather, we invest in cash flow generators. Most of the portfolio companies shall be net debt free. Focus on companies with Net Debt/EBITDA of less than 3.5x

Companies that **generate clean operating cash flows** without working capital leakage

Capital efficient companies, i.e. companies with healthy return ratios (12 %+) across cycles

Preference for companies with strong sustainable moats; companies have moats in the form of technology or very strong brands. Also, there should be no threat of technology disruption

Terminal value investing; opportunity size to grow should be such that the company can easily grow at double digits for long period

Overriding philosophy is buy **good companies during bad times and quality at a reasonable price.**

Investment Process

Investment Framework And Approach

- Stocks overreact to short term noise and underreact to long term structural changes
- Valuation a key metric of investment decision
- Opportunistic approach to capture price dislocation
- Actively managed portfolio
- High focus on generating alpha; which may result in shorter holding periods and churn
- Key to re-balancing portfolio : strong buy and sell rationale
- Re-balancing cash positions for opportunities and uncertainties

Investment Framework And Approach

Fundamental and tactical ideas can achieve capital preservation and wealth creation

	How will they add value	Why will this work?
Fundamental ideas	Focus on companies with strong balance sheets, scalable business models and clean corporate governance	Market fails to price long term structural growth trends
Tactical ideas	Acquire quality stocks going through sudden correction due to a stock/sector event or special situation	Market overreacts to short term news (stock/sector specific)

Investment Rationale

Buying discipline helps in achieving capital protection and selling discipline helps in maximizing and protecting returns.

Buying rationale

- Market price at a discount to the intrinsic value of the business
- Temporary earning compression; bottom of earning cycle
- Change in management
- Change in macros, industry specific factors and regulatory policy
- Temporary market correction triggered by news flows related to domestic/global markets

When do we exit?

- Valuation concerns, which could limit further upside
- Change in business dynamics
- Change in management
- Change in macros, industry specific factors and regulatory policy
- Availability of alternative investment opportunities
- Market euphoria before the outcome of unpredictable events (e.g. Elections, budget etc.)
