

REDEFINING TRANSPARENCY IN HEALTHCARE

"Sunlight is said to be the best of disinfectants."

-Louis D. Brandeis

ProVision Health: Transparency in Action, Empowering Results

At ProVision Health, we pride ourselves on delivering exceptional value through innovative healthcare solutions that extend beyond traditional models. As we navigate the evolving landscape of healthcare, transparency remains a cornerstone of our commitment to our clients. This commitment is reflected not only in our practices but also in the empirical results we've achieved, particularly when comparing our paid claims to the network allowed amounts under Anthem Blue Cross.

Understanding the Numbers: Transparency and Compliance

The Transparency in Coverage law, a significant step forward in healthcare transparency, requires that all health plans and insurers disclose their in-network allowed amounts for services rendered by hospitals and other facilities. These figures, now publicly accessible through machine-readable files on insurers' websites, offer a new level of insight into healthcare costs.

At ProVision, we embrace this transparency and believe it's crucial for empowering businesses to make informed decisions about their healthcare strategies.

The ProVision Advantage: Results That Speak for Themselves

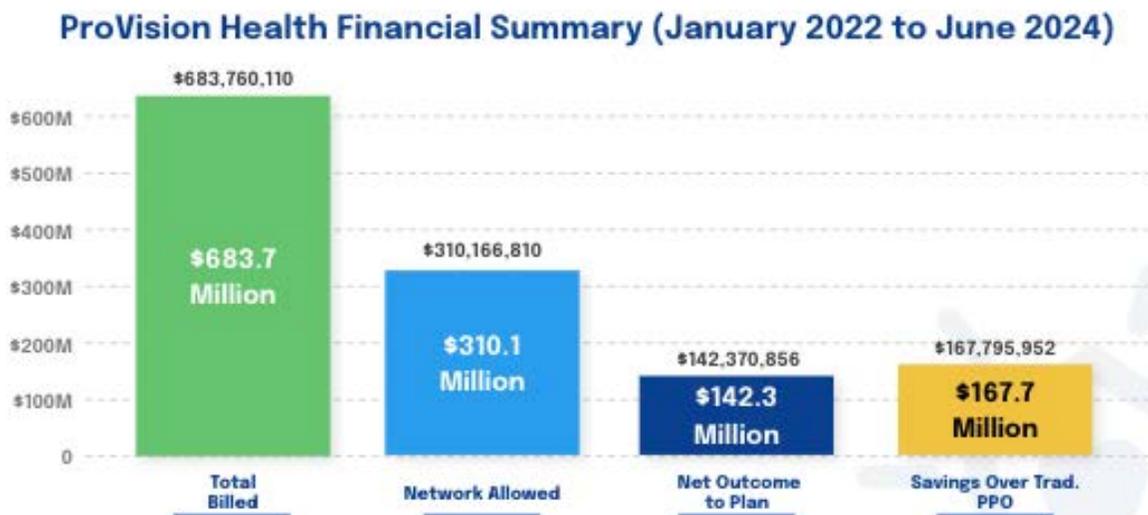

In comparing our paid claims to the disclosed network allowed amounts under Anthem Blue Cross, a pattern emerges that underscores the efficacy of the ProVision model. While Anthem Blue Cross has long been a trusted partner in providing access to a vast network of healthcare providers, our empirical data reveals that the ProVision program has consistently achieved significant savings on these same claims.

Empirical Results: A Closer Look at the Numbers

To further illustrate the impact of ProVision's approach, consider the following data comparison between billed amounts, Anthem Blue Cross allowed amounts, and ProVision paid amounts from January 2022 to January 2024:

- ❖ Total number of Paid Claims 74,655
- ❖ Total Billed Amounts: \$310,759,141
- ❖ Anthem Blue Cross Allowed Amounts: \$140,984,912
- ❖ ProVision Paid Amounts: \$64,714,025
- ❖ Total Savings Delivered by ProVision: \$76,270,887

This data highlights the substantial savings that ProVision has achieved, with ProVision paid amounts being significantly lower than the Anthem Blue Cross allowed amounts. The difference is a testament to the effectiveness of ProVision's proprietary claims adjudication algorithms and advanced analytics, which enable us to optimize healthcare costs without compromising quality.

A Testament to Innovation, Not a Critique

It's important to emphasize that these savings are not a reflection on Anthem Blue Cross's network or its processes. Instead, they are a testament to the additional layers of innovation that ProVision brings to the table. Our proprietary claims adjudication algorithms, coupled with the advanced analytical software managed by Leading Edge Administrators, allow us to maximize the efficiency and cost-effectiveness of every healthcare dollar spent.

By leveraging these tools, ProVision can deliver results that exceed the sum of their parts. The difference between the network allowed amounts and our paid claims is a clear indication of how our program enhances the value of every healthcare interaction, ultimately empowering businesses to achieve greater financial health without sacrificing the quality of care.

Transparency as a Beacon of Trust

We believe that transparency in healthcare not only builds trust but also drives innovation. By openly sharing our results, we are not only complying with the law but also demonstrating the power and effectiveness of the ProVision model. Our commitment to transparency ensures that our clients are fully informed, allowing them to witness firsthand how ProVision transforms healthcare into a more efficient and cost-effective experience.

The ProVision Commitment

At ProVision Health, we remain dedicated to providing unparalleled value through innovation, transparency, and integrity. Our results are not just numbers; they are the embodiment of our mission to empower businesses and enhance lives. As we continue to partner with Anthem Blue Cross and Leading Edge Administrators, we look forward to delivering even greater savings and benefits to our clients, proving that together, we can achieve more.
