Andrew McNabb

"I joined Harrisons in 2011, since that time we have had some great results. Starting from the initial training programmes, getting confident with the products and that was followed up by ongoing support from Head Office that continues to this day.

The marketing team at Harrisons always do a great job getting new leads for our business. Being a large group ensures we get the best products at competitive pricing and keeps us a step above our competitors.

The initial investment to purchase the franchise presented a golden opportunity to start generating a good income from the very first month.

We also get to go on overseas trips to places like Hawaii and Fiji every year to recharge and to talk with all the other franchise owners in the company.

If you are looking to join a great company that takes care of the team, I would definitely recommend Harrisons as a great move."

Devon & Kat Rogers

"Becoming a Harrisons franchisee has become a great decision for our family as we now have the flexibility to control our weekly schedule, meaning that we can both enjoy time with our daughter. We are financially able to live comfortably with only one of us working. We have also made great friends with the other local franchise owners, which has made us enjoy the community where we live even more."

Jenny Thompson

"Buying a Harrisons franchise is not just buying a business, it's buying a lifestyle, a support system and a fantastic team culture to be a part of.

Having owned a Harrisons franchise for over two years has been a fantastic decision, the hard work you put in is very rewarding, it's not easy, but you get out what you put in."
