Product Overview

At RS, we believe that great design is built on precision – every line, every detail, every finish serves both form and function. Our new Aluminium Decorative Battens redefine architectural expression with a balance of refined aesthetics and enduring performance.

With an extensive selection of high-end finishes and flexible customisation options, we make it easy to achieve virtually any look – allowing architects, designers, and builders to bring their creative vision to life without compromise.

Why Choose RS Aluminium Decorative Battens?

Defined by refined lines and architectural precision, RS Aluminium Decorative Battens bring a timeless sense of order and depth to any space — a seamless fusion of aesthetic versatility and engineered performance.

Each batten is crafted from premium-grade aluminium and finished with durable, weather-resistant coatings to ensure lasting colour and texture — no fading, warping, or maintenance required. Whether creating bold vertical accents, subtle ceiling rhythms, or dynamic façade patterns, our battens deliver clean, continuous lines with effortless installation.

Available in a diverse range of profiles, dimensions, and finishes — from contemporary matte tones to warm timber-look textures — RS battens empower architects and designers to shape their vision without compromise.

Non-combustible, sustainable, and compliant with Australia's national building standards, they represent more than just a design choice — they are a statement of quality, safety, and enduring craftsmanship.

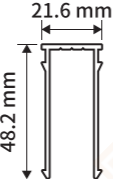

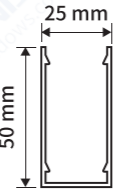

RS Aluminium Decorative Battens — where precision meets performance, and every line defines elegance.

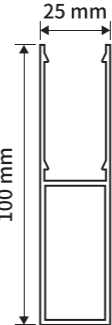

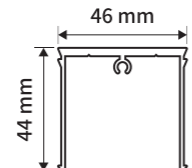

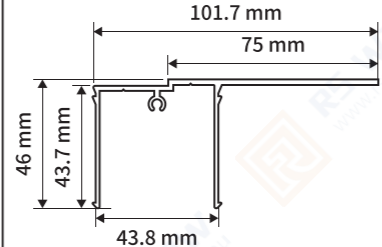

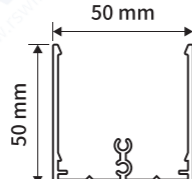

Profile information

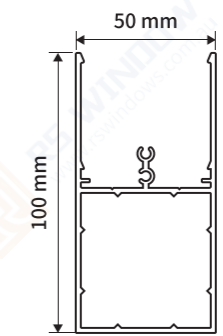

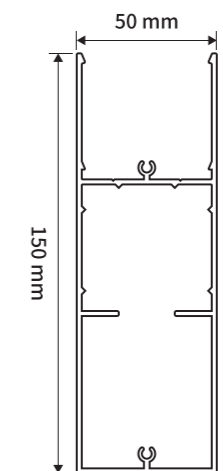

RS offers a variety of size options for profiles.

Multiple profiles and dimensions can be mixed and matched to create rhythm, depth, and visual harmony across any surface.

Serial number	name	Module number	Profile section	Thickness (mm)	Weight per meter (kg/m)
4	Decorative base (25mm)	RSJL-001		1.5	0.503
3	Exterior decorative aluminum (50*25)	RSJL-002		1.5	0.522

Serial number	name	Module number	Profile section	Thickness (mm)	Weight per meter (kg/m)
4	Exterior decorative aluminum (75*25)	RSJL-003		1.5	0.886
3	Exterior decorative aluminum (100*25)	RSJL-004		1.5	1.129

Serial number	name	Module number	Profile section	Thickness (mm)	Weight per meter (kg/m)
4	Decorative base (50mm)	RSJL-006		1.4	0.734
5	Wide decorative base (50mm)	RSJL-005		1.4	0.939
3	Exterior decorative aluminum (50*50)	RSJL-007		1.8	0.862

Serial number	name	Module number	Profile section	Thickness (mm)	Weight per meter (kg/m)
4	Exterior decorative aluminum (100*50)	RSJL-008		1.8	1.597
3	Exterior decorative aluminum (150*50)	RSJL-009		2.0	2.345

Installation

Installation mode 1
Installed inside the hollow wall cavity

Installation steps

Install the square tube inside the wall and fix it at the top and bottom

Secure the exterior decorative aluminum to the square tube using aluminum angle

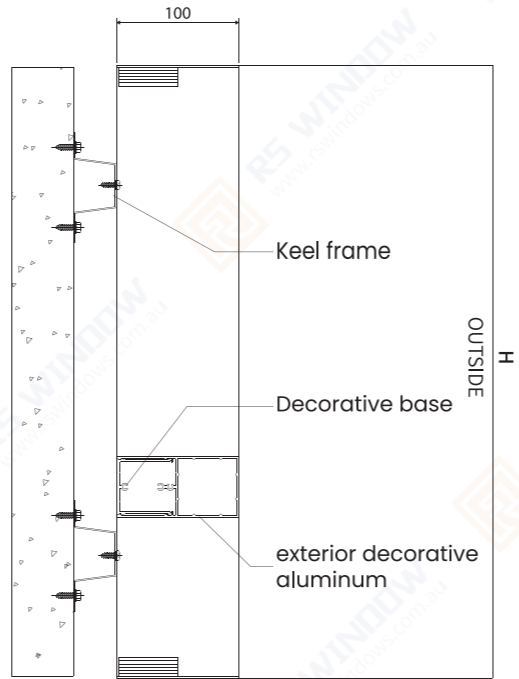

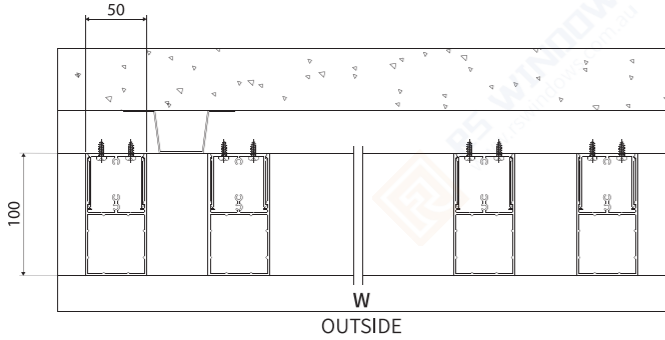

Insert the decorative base into the exterior decorative aluminum

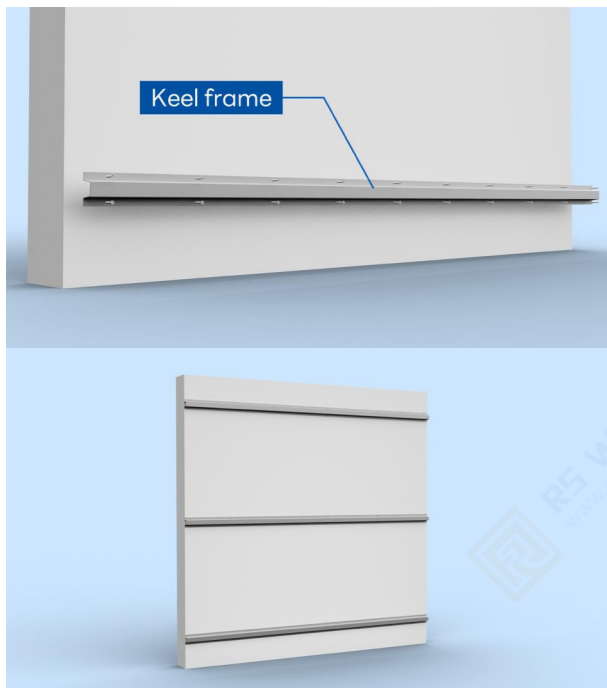

Installation

Installation mode 2
Install on the side of the wall

Installation steps

Install the keel frame on the side of the wall

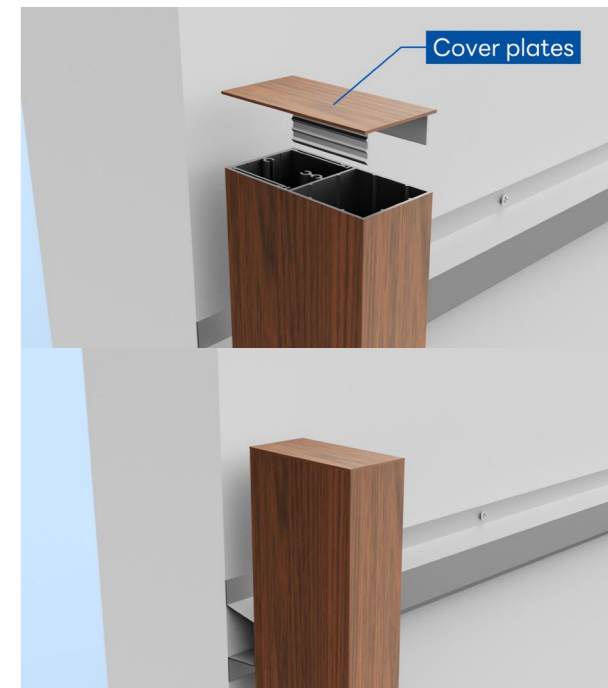

Fix the decorative base to the keel frame

Insert the exterior decorative aluminum into the decorative base

Install the upper and lower cover plates

Design Excellence Engineered for Performance

✓ Contemporary Design, Enduring Performance

Crafted from premium-grade aluminium, our decorative battens offer the perfect balance of architectural elegance and structural integrity. Designed for both residential and commercial applications, they deliver sleek linear aesthetics ideal for facades, walls, ceilings, and screening.

✓ Built to Last

Our battens are engineered to withstand Australia's demanding climate – resistant to fading, warping, and corrosion. The durable powder-coated finish ensures long-lasting beauty with minimal maintenance, eliminating the need for painting or staining.

✓ Effortless Installation

Lightweight yet robust, the system is designed for fast and simple installation. Battens can be installed vertically or horizontally with clean, continuous lines – offering seamless integration and a refined architectural finish.

✓ Versatile Finishes and Profiles

Available in a wide range of colours, timber-look grains, and textured finishes, each batten is tailored to suit your project's design intent. Multiple profiles and dimensions can be mixed and matched to create rhythm, depth, and visual harmony across any surface.

✓ Non-Combustible and Sustainable

Manufactured from solid aluminium, the system is certified non-combustible, meeting Australia's stringent fire safety standards. Aluminium's recyclability and low environmental impact make it a responsible choice for modern, sustainable construction.
