

The Strata collection is a tribute to the timeless beauty of our planet. Each piece is a testament to the tapestry of the Earth, a narrative woven through the ages, captured in the colors and textures of the rug's pieces. But these rugs represent not only the beauty of the Earth, but also the commitment to caring for it, as each rug in the “Strata” collection is made from recycled PET yarn.

Under the motto “Archive of Memories of the Earth”, Strata is an invitation to honor the memories of the Earth that were recorded in the rock and soil, in the colors and textures of these carpets.
