- Unlimited assessor licenses
- Unlimited Core Assessments
- Access to Partner Portal
- Discounts with our preferred partners
- Risk Assessor/CvCISO Course and Certification

SecurityStudio provides digital badges to Partner MSPs that qualify as an MCSP.

### The Value of Partnership

SecurityStudio's advanced risk assessment tool, combined with its CvCISO Training Program, empowers partners to launch and manage their own vCISO services. Provide your clients with a defensible and insurable continuous risk management program that will solidify your MSP as a long-term trusted advisor, and create a recurring revenue stream for your business.

#### Comprehensive Risk Assessments

Our Level 1, Level 2, and Level 3 assessment options cater to organizations of all sizes and requirements.

#### Easily Understandable Reports

We offer a variety of report options, including executive summaries, management reports, full reports, framework-specific reports, and specialty reports, to meet your clients' diverse needs.

#### Vendor Risk Assessments

We help identify and manage all customer third-party vendors to evaluate and mitigate potential risks.

#### Continuous Vulnerability Scanning

We offer optional integrated continuous vulnerability scanning and asset identification.

#### Dynamic Security Roadmaps

Our platform automatically prioritizes client security remediation tasks by score and impact, creating immediate and future project work and providing additional revenue opportunities for your business.
