
NOVEMBER PRAYER GUIDE

A church in every village: Togo's historic pursuit.

Togo's completed map highlights the remaining church-planting opportunities. It helps identify where a local church can take root among the people who call these places home, carried forward by leaders serving within their own communities.

Turn Togo Green directs support toward church plants in the next 2,000 villages, as part of the larger aspiration for Togo to become the first country where every community is green. Doulos is stewarding Kingdom capital through our trusted Field Partner, The Timothy Initiative, to support local leaders in this work.

The campaign has a defined scope, but church planting across Togo can continue beyond it. Each \$500 gift helps fund a church plant, and gifts are matched toward the campaign goal. As local leaders identify more opportunities to plant, we welcome the chance to see more churches established and Gospel access continue to grow across Togo.
