

Multimodal & Cross-Border

Mallory Alexander helps freight move smoothly across modes and borders. We ensure that handoffs, compliance, and timing are critical to our operations. Our team coordinates transportation, clearance, and execution across international and domestic networks to keep shipments moving according to schedule.

Let Us Solve Your Biggest Challenges

- ✓ Disjointed communication between modes and providers leading to inefficiencies
- ✓ Delays at borders and ports of entry affecting delivery times
- ✓ Compliance complexity across countries and agencies that can stall shipments
- ✓ Limited freight visibility and status updates, creating concern for clients

**We're your
one-stop
partner for:**

Coordinated movement across ocean, air, and ground

Cross-border execution between the U.S., Canada, and Mexico

Integrated customs and trade support

End-to-end accountability across the shipment lifecycle

Coordinated Logistics Across Borders and Modes

Multimodal and cross-border shipments require precise coordination across the first leg of transportation, through clearance to delivery. Mallory Alexander ensures every move is aligned to reduce delays and ensure continuity through final delivery.

Cross-Border Transportation (U.S., Canada, & Mexico)

Coordinating freight movement across borders with attention to clearance timing, carrier execution, and regulatory requirements.

Mode Transitions Between Ocean, Air, & Ground

Managing handoffs between transportation modes to maintain service levels and strengthen every point of execution.

Customs Brokerage & Clearance Integration

Aligning transportation planning with customs filing, clearance, and agency coordination to reduce border delays.

Time-Definite & Just-In-Time Support

Supporting shipments that require strict delivery windows across international and domestic legs.

Visibility Across Multimodal Shipments

Providing centralized tracking and communication through myMALLORY, as freight moves across borders or modes.

Let's discuss your multimodal and cross-border needs.

Connect with the Mallory Alexander team to discuss global transportation solutions aligned to you.
