

# Purchase Order Management

myMALLORY, Mallory Alexander's customer-facing digital portal, serves as your centralized place for orders. Stay organized and informed with real-time visibility across suppliers, bookings, and inbound shipments.

## Let Us Solve Your Biggest Challenges

- ✓ Limited visibility across all orders
- ✓ Missed consolidation opportunities
- ✓ Late bookings and last-minute changes
- ✓ Surprise delays and constant firefighting

### We're your one-stop partner for:

Centralized PO visibility and control

Supplier coordination and milestone tracking

Proactive exception management

One operational system of record

### End-to-End Visibility and Execution

myMALLORY tracks the full PO lifecycle, connecting supplier confirmations, production milestones, bookings, and shipments. With PO management directly tied with execution, this unifies fragmented inbound operations, so you experience fewer delays and greater planning accuracy.

#### Centralized PO Visibility in myMALLORY

Providing a single view of all active orders, supplier status, and shipment progress.

#### Supplier Coordination & Milestone Tracking

Showing confirmations, production readiness, and booking timelines across vendors.

#### Consolidation Planning & Execution Support

Improving consolidation by aligning POs to booking and container planning.

#### Exception Management & Proactive Alerts

Identifying delays, readiness issues, and other risks to minimize downstream impacts.

#### PO-to-Shipment Continuity

Connecting orders directly to shipments supporting complete traceability.
