

# Project Cargo & Specialized Logistics

Mallory Alexander supports complex and oversized projects, both domestic and international, including heavy haul, charter, barge, rail, and more. Our team handles detailed planning from coordination with engineering and compliance to ensure reliable execution and delivery.

**We Handle:** ✓ Out-of-Gauge (OOG) & Oversized Cargo ✓ Breakbulk, RO/RO & Charter Solutions  
✓ Route Surveys, Permits & Regulatory Compliance ✓ Dedicated Project Management & Risk Mitigation  
✓ Heavy Lift & Critical Cargo Movements ✓ Multimodal Coordination (Ocean, Air, Rail, Barge & Inland)

## We're your one-stop partner for:

- End-to-end project coordination
- Coordinating multi-modal project movements
- Navigating complex trade and compliance requirements
- Charter, barge, and rail options
- Engineering and route planning support
- Keeping large projects on schedule
- Heavy haul and specialized transport

## Engineered Solutions

We offer deep expertise to engineer solutions for oversized, heavy, and complex cargo movements, ensuring every project and phase stays aligned to schedule and site requirements.

### Transportation & Logistics Planning

Planning routes, modes, and sequencing to support safe and efficient project execution.

### Heavy Haul, Charter, & Specialized Transport

Coordinating heavy haul trucking, ocean and air charter, barge, and rail solutions.

### Crane, Rigging, & Destination Services

Managing on-site handling, rigging, and delivery coordination at project destinations.

### Risk Management & Route Surveys

Conducting route analysis and risk mitigation to prevent delays or damage.

### Engineering & Technical Support

Supporting complex projects with engineering insight and execution oversight.

Let's discuss your specialized logistics needs.
