

ROOFTOP FALL HAZARD ASSESSMENT TOOL

Take The Assessment

- » **WHAT IS IT?** A digital, self-assessment (mobile-friendly) tool to identify and document potential fall hazards on your rooftop.
- » **WHO IS THE TARGET AUDIENCE?** Property Managers, Facility Managers, and Facility Engineers

WHY SHOULD YOU ASSESS YOUR ROOFTOP?

Early inspection and detection allow you to:

- + Prevent costly OSHA violations and penalties
- + Reduce liability risks from falls and injuries
- + Identify missing or insufficient fall protection systems
- + Plan and budget for necessary fall protection solutions

HOW DO YOU USE THE ROOFTOP FALL HAZARD ASSESSMENT TOOL?

Follow the step-by-step instructions.

- If a section applies to your rooftop, click “Yes”
- If a section doesn’t apply to your rooftop, click “Skip” to jump the next section

HOW LONG DOES IT TAKE TO COMPLETE?

We recommend using this tool on your mobile device or tablet for a 10-15 minute rooftop walkthrough.

WHAT HAPPENS AFTER I COMPLETE IT?

Your answers will be sent to your email for you to review and share.
