Short description

dotch GmbH offers a **full-service reusable packaging solution**. This means that, from assessing potential and supporting the transition to reusable packaging right through to the operational management of the pool, dotch is the go-to partner for its clients when it comes to reusable packaging. We take care of every step of the process and **make reusable packaging as straightforward as possible for everyone involved**.

Products

0,5 L standard bottle for oils and vinegars
+
secondary carrier

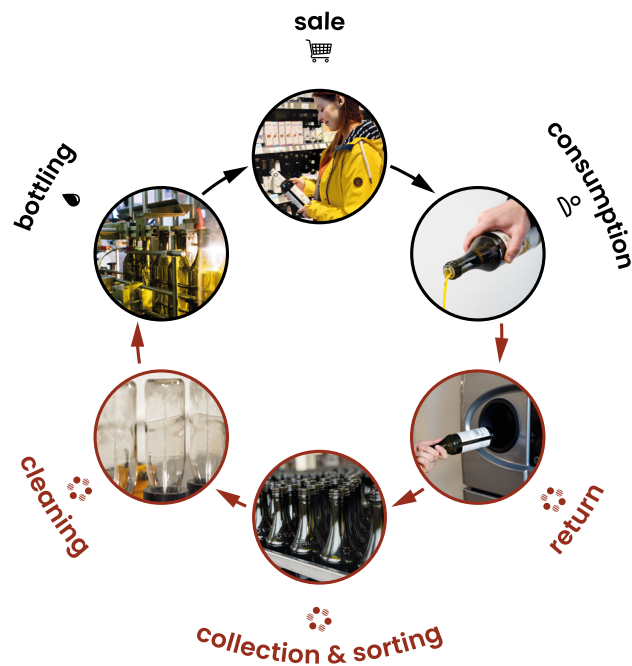

- used by **8 filling partners**
- **developed and optimised** in cooperation with leading industry partners
- available throughout the **german organic retail sector** and in **Austria**
- **50 ct** deposit
- over **500.000** containers in circulation
- over **1.500** return points
- **easy return** analogous to beverage bottles

Availability

the dotch - cycle

 producers  retailers  consumers  dotch

We're closing the gap to a genuine circular economy

- we supply **bottling plants** with reusable containers instead of single-use ones.
- we provide **retailers** with a single point of contact for handling and logistics.
- **customers** can return our containers as normal at the deposit machine.
- dotch **accompanies the entire process**. From container development and the transition to reusable containers to the management of the container pool.
- this is how we make **reusable packaging as easy** for our customers **as single-use packaging**.
