Bump'n'Run | Perpendicular Piles | Multiple Targets

Align a bucket of balls next to the green (avg. bucket is 40 balls) into 10 equal perpendicular piles of 4 balls and stop bump'n'run shots close to multiple targets. Count the number of successes.

- ✓ **How to practice?** For the bucket of 40 balls, make 5 piles of 4 balls per one perpendicular line; 2 lines of 5 piles; lines [5-10 y/m apart], piles [2 y/m apart]. Setup on any grass, any slope, anywhere from 1 to 10 y/m to the green and 5 to 30 y/m from the hole. Hit 2-4 bump'n'run shots alternately from pile to pile. In the process, hit to different flags (targets) and count the number of successful shots (success=inside [10 ft | 3 m]).
- ✓ Hit two buckets in total.
