

**stryker**

# **Triton<sup>®</sup>, now integrated with SurgiCount<sup>+</sup>**

## **Journey to Zero<sup>®</sup>** maternal harm

Triton, now a part of SurgiCount+, helps care teams assess maternal blood loss and effectively implement their facility's OBL protocol.

# Key features

**Blue sponge bag container** is easy to reach

**Tablet** is eye-level and intuitive

**Reader** enables wireless scanning and counting, and saves time spent searching for sponges

**Sponge counting bags** are forward-facing, allowing nurses to visualize

**Shelf** allows seamless workflow for batch-weighing blood-soaked items

**Power supply** provides power for the entire stand for up to 10 hours unplugged

**Casters** make it portable with small footprint

**Universal reporting tool** supports cross-departmental communication and stores real-time case data for hospital-wide insights and trend analysis

**EMR connectivity** to streamline your OBL documentation process

# Key benefits

## Triton AI

- ✓ **Assesses real-time, cumulative blood loss** to drive a streamlined workflow specific to each hospital
- ✓ **Captures scans** of surgical sponges to estimate hemoglobin content, using AI
- ✓ **Allows batch-weighing**, while accounting for blood loss of suction canister
- ✓ Through **colorimetric analysis**, AI technology differentiates blood from other fluids (amniotic fluids, saline, etc.)

## Triton QBL

- ✓ **Bluetooth weighing scale** allows surgical personnel to batch-weigh surgical substrates
- ✓ **Accounts for blood loss** where displaced blood is collected (V-Drape)
- ✓ **Patient-centric tracking** to provide a cumulative quantification of blood loss across multiple care points
- ✓ **Hospital-defined protocols and text alerts** help coordinate the clinical team's hemorrhage response

# Confidence when it counts. Real-time. Streamlined.
