

Construction Update: Myers Lake Avenue Closure Update

Belding Road Sanitary Sewer Replacement | Cannon Township

Project No.: 2250397

Myers Lake Avenue continues to be closed between Belding Road and Cannonsburg Road. The Cannon Township Center can be accessed from Belding Road as the Myers Lake Avenue entrance is completely closed.

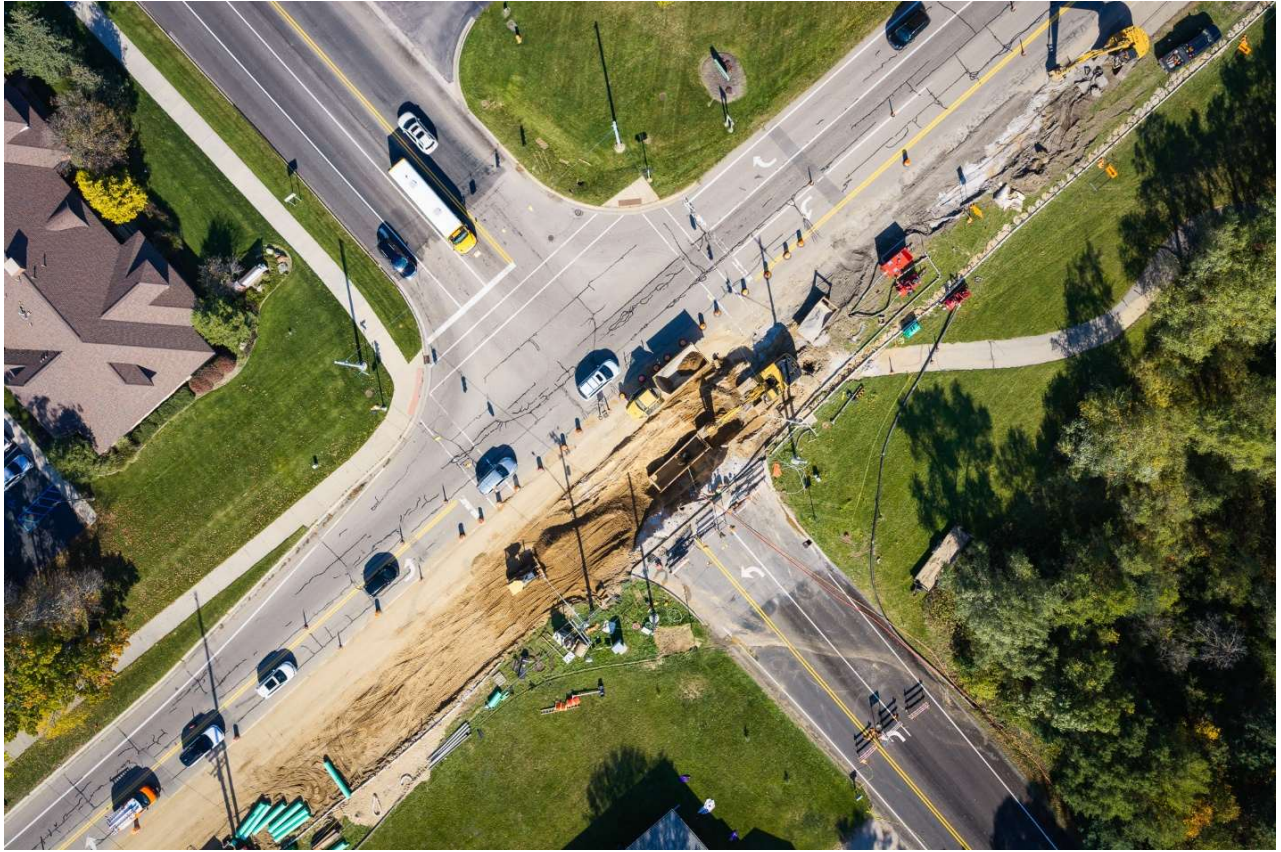

Dean's is making good progress installing the new sanitary sewer through the intersection. Today, Thursday, Dean's will make the connection to the existing sewer on the east side of Myers Lake. Sanitary sewer work is expected to be completed early next week.

Roadside restoration work was completed this week between Egypt Valley Avenue and Silver Maple Lane.

Dean's has concrete work scheduled for next week Monday and paving is scheduled to be completed the second half of next week weather permitting. Once the intersection is paved the road closure will be removed.
