

Stakeholder Centred Leadership (SCL)

Driving Measurable Change Through Active Engagement

Content Overview:

Based on Dr. Marshall Goldsmith's globally recognized methodology, *Stakeholder Centered Leadership* accelerates leadership growth by turning feedback into measurable results. This keynote helps leaders move from self-focused development to *stakeholder-driven transformation* — where real change is observed, sustained, and celebrated by others.

By actively engaging stakeholders, leaders build trust, enhance collaboration, and create a culture of accountability that drives consistent performance and long-term success.

Key Takeaways:

- **Engage stakeholders effectively** to gain valuable, real-time insights for growth.
- **Transform feedback into feedforward** — creating positive, forward-focused behavioral change.
- **Foster collaboration and accountability** across teams and departments.
- **Create measurable leadership impact** that is visible, sustainable, and aligned with organizational goals.

Ideal For Following Audience:

- Executive Leadership Members seeking to strengthen stakeholder management
- In-house HR and L&D Professionals
- Leadership Transformation Programs
