[How to set up a maintenance schedule in excel.](#) **[Printable home maintenance schedule spreadsheet.](#)** **[Maintenance spreadsheet example.](#)** **[Home maintenance spreadsheet excel.](#)**

Home Maintenance Schedule	
Quarterly	
Plumbing	
Faucets and shower heads	Check interior and exterior faucets for leaks. Clean aerators. Replace washers if necessary.
Drains	Clean with baking soda. Pour water down unused drains.
Pipes	Inspect visible pipes for leaks.
Kitchen and bathroom cabinets	Check under and around for leaks.
Toilets	Check for stability and leaks.
Water heater	Check area around water heater for leaks. If you have hard water, drain 1-2 gallons water.
Exterior	
Wood decks and trim	Apply a wood preservative.
Interior doors	Lubricate hinges.
Garage door	Lubricate hardware. Inspect mechanism for free travel.
Windows and door tracks	Check to see if squeegee area is open. Clean out dirt and dust. Lubricate rollers and tracks.
Basement or crawl space	Check for cracks or any signs of dampness or leaks. Check for any evidence of termites or wood-eating insects.
Grass	Check and clean grass.
Electrical and appliances	
Heating and cooling systems	Clean and replace filters if necessary.
Kitchen exhaust fan	Remove and clean the filter. Clean accumulated grease drops from the fan housing.
Refrigerator	Clean dust from top. Clean refrigerator door pans. Clean and defrost freezer if necessary.

A homeowner, maintaining your property is crucial to ensure that your investment stays well-spent and your home remains comfortable and safe for years to come. To achieve this, it's essential to regularly keep your house clean and in good condition. A helpful tool in doing so is the Home Maintenance Schedule Maker Template for Excel, designed to track regular tasks and help you stay on top of your home's needs. This template provides a streamlined spreadsheet where you can categorize tasks by categories like Plumbing, Interiors, and Electrical and Appliances.

You can also organize these categorized tasks into quarterly and seasonal frequencies. The template includes sample activities and specific descriptions to guide you, allowing you to add more tasks, categories, and frequencies tailored to your household maintenance needs. One of the template's standout features is its formatting. It uses color-coded task frequencies to help you quickly identify which tasks belong in quarterly or seasonal activities. Each table also has alternating rows to make it easy to distinguish between tasks. Additionally, you can filter tasks to display only the information you need. The flexibility of this template means you can use it not just for home maintenance but also for other tasks like garden maintenance, store management, or even daily and weekly cleaning duties. Simply modify the tasks and categories to suit your specific needs. Just as regular health check-ups are crucial for your body's well-being, a home maintenance checklist is vital for every house's upkeep. By regularly inspecting and maintaining your exterior, appliances, heating and cooling systems, plumbing, security, and electrical systems, you can prevent breakdowns, save money, and keep your home looking its best. Use this comprehensive home maintenance schedule to help you stay on track and ensure that your home remains in prime working condition. If any recommended repairs or maintenance tasks go beyond your skill level or lead to more complicated projects, consider hiring a professional to assist you. To ensure your home's smooth functioning throughout the year, it's essential to complete seasonal maintenance tasks. In the fall, inspect your home's interior and exterior, addressing any issues that may arise. This includes cleaning the garbage disposal, unclogging drains, and testing smoke alarms and detectors.

Additionally, check fire extinguishers, electrical cords, and water heaters for proper functioning. To prepare for winter, rake leaves and aerate your lawn. Remove debris from gutters and downspouts, and practice pest prevention by trimming shrubs and repairing rotten woodwork. Don't forget to drain exterior plumbing, repair cracks in driveways and sidewalks, and check for damage to door screens. Before the heating season begins, have your forced-air heating system inspected by a professional, and check your fireplace for damage or hazards. Clean carpets, vacuum lint from dryer vents, and inspect water heaters for leaks. Finally, replace batteries in smoke and carbon monoxide detectors and install one on every floor of your home. Once winter has passed, it's time to prepare for spring. Cover your air-conditioning unit, inspect the roof, gutters, and downspouts after storms, and stock up on sidewalk salt and ice melt. In the spring, refinish the deck, fertilize your lawn, prune trees and shrubs, clean window and door screens, and remove leaves and debris from gutters. Have a professional inspect and pump septic tank, inspect roof for missing or damaged shingles, wash windows, power-wash siding, repair caulking around doors and mechanicals, clean faucet aerators, remove insulation from outdoor faucets, check sprinkler heads, and repeat tasks in fall. Replace air-conditioner filter, polish wood furniture, dust light fixtures, replace smoke detector batteries, inspect sink and bath caulking for deterioration, vacuum dryer vent, have air-conditioning system serviced, drain water heater, and repeat tasks in spring. Additionally, remove lint from dryer vent, clean kitchen exhaust fan filter, clean refrigerator coils, empty and clean drip trays, check dishwasher for leaks, replace faucet washers if needed, seal tile grout, and check for leaks around cabinets and toilets. Spring: Seal kitchen and bathroom caulking where needed. Clean and inspect refrigerator coils. Schedule air conditioning inspections. Clean AC condensate drains, kitchen exhaust hoods, and air filters.

Additionally, remove lint from dryer vent, clean kitchen exhaust fan filter, clean refrigerator coils, empty and clean drip trays, check dishwasher for leaks, replace faucet washers if needed, seal tile grout, and check for leaks around cabinets and toilets. Spring: Seal kitchens and bathroom caulking where needed. Clean and inspect refrigerator coils. Schedule air conditioning inspections.

Summer: Clean AC condensate drains, kitchen exhaust hoods, and air filters. Inspect decks, exterior paint, siding/masonry, windows, doors, and roofs for damage or issues. Remove and store storm windows, install screens, repair/replace window screens, and inspect play equipment. Clean gutters, prune shrubs based on blooming schedules, and schedule septic tank inspection. Summer: Reverse ceiling fans to run counterclockwise. Inspect crawl spaces for moisture, and homes for insect activity. Test/dust smoke detectors, clean kitchen exhaust hoods, air filters, and vacuum refrigerator coils. Drain sediment from hot water heaters, insulate exposed pipes, and schedule furnace inspection. Fall: Inspect and clean AC units, and store hoses. Fall: Inspect and clean smoke detector batteries (if applicable), test/dust detectors, and clean kitchen exhaust hoods, air filters, and vacuum refrigerator coils. Drain sediment from hot water heaters, insulate exposed pipes, schedule chimney inspections/cleanings, remove/store window screens, shut off outdoor water supplies, inspect roofs for damage, and clean gutters.

Winter: Clean kitchen exhaust hoods, air filters, and vacuum refrigerator coils. Test GFCI outlets in kitchens, bathrooms, and laundry rooms. Clean dryer vents to prevent fires, check sinks for leaks, and inspect play equipment for safety issues. Ensure the integrity of your appliances and home systems by conducting routine checks and repairs. Check hoses on washing machines, dishwashers, and ice makers for leaks and replace them as needed. A step-by-step guide to replacing a washing machine hose is provided. Reverse ceiling fans to their natural clockwise direction. Test your sump pump to guarantee its proper functioning. For an organized and printable seasonal home maintenance checklist, click here. This downloadable tool features checkboxes to mark completed tasks and a space for recording completion dates. Add it to your household notebook for easy reference.
