

LEGAL, ACCOUNTING & REGULATORY

Unlocking the Power of Bitcoin
and Business

WELCOME TO BITCOIN AMSTERDAM

- Join us at the premier European event for thought leaders, builders, and digital asset professionals to network and connect.
- The rise of digital assets raises questions about their impact on legal, accounting, and regulatory domains.
- Connect with top professionals shaping these landscapes in the digital asset arena.

UNRIVALED NETWORKING

Forge Connections That Last

Engage with industry pioneers, forward-thinking executives, and like-minded professionals. Seize the chance to build relationships that could redefine your business trajectory.

AI Powered Networking

Conference attendees gain access to our AI-powered networking app to customize their experience, share their story, connect with others. Arrange numerous one-on-one meetings with potential clients and partners, both prior to and following the event.

Showcase Your Brand

Elevate your company's presence by connecting with key decision-makers and showcasing your brand to a global audience.

LEARN FROM VISIONARIES

KNOWLEDGE FROM THE BEST

Gain insights from industry luminaries and other thought leaders shaping the future of law, accounting, technology, and finance. Dive deep into discussions on corporate bitcoin adoption, innovative use cases, and disruptive trends.

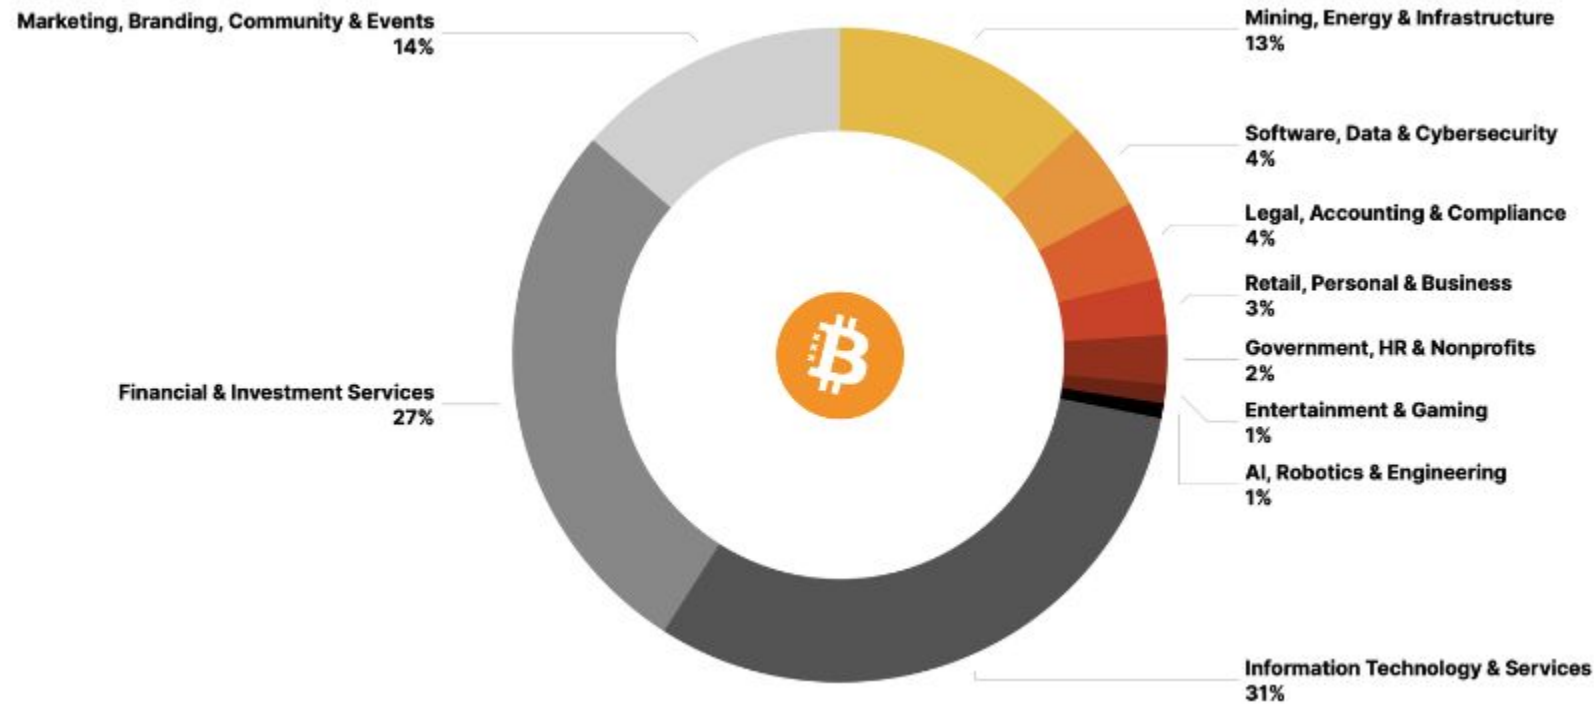

ENGAGING SESSIONS:

Equip yourself with information on the latest developments, strategies, and market intelligence. Choose from an array of panels and keynote presentations tailored to your business needs. Leave with actionable insights to drive growth and innovation.

WHO ATTENDS?

WHAT PEOPLE ARE SAYING ABOUT BITCOIN AMSTERDAM

“When our team chose to participate in the event, our primary objectives were to network with new exchanges, asset managers, funds, and projects as a market maker. Surprisingly, the gathering also provided an opportunity to reconnect with familiar faces, forge new relationships, and gain valuable insights. Beyond the business prospects we identified, we acquired even more knowledge than anticipated.”
