CAMTS Spring 2026

The CAMTS Spring 2026 board meeting took place at the American Academy of Pediatrics headquarters in Itasca, Illinois, bringing together twenty board members to set policies, advance committee initiatives, and finalize accreditation decisions. Attaining CAMTS accreditation marks a significant milestone, highlighting a dedicated commitment to excellence in medical transport. These accredited programs are subject to regular, thorough audits to ensure they meet standards and provide high-quality patient care and safety.

The CAMTS Board awarded accreditations as follows:

Congratulations to the following four NEW accreditations:

EMA Global, Singapore	FW/G/ME
Guardian Flight Great Lakes, Escanaba, MI	RW/FW

PHI Air Medical CA/NM, Modesto, CA	RW/FW
PHI Air Medical Texas, Houston, TX	RW
SkyHealth, Farmingdale, NY	RW
University of Iowa AirCare, Iowa City, IA	RW/G

Accreditations (RW=Rotor wing, FW=Fixed Wing, G=Ground, ME=Medical Escort)

The Commission on Accreditation of Medical Transport Systems (CAMTS) is dedicated to improving the quality of patient care and the safety of the transport environment for services providing rotorwing, fixed wing, and ground transport systems. To achieve CAMTS accreditation, medical transport programs must adhere to CAMTS's standards, developed and continually improved by a board of highly skilled and experienced safety and medical transportation professionals. Adherence to these standards, which are above and beyond regulatory requirements, is audited every three years to ensure program compliance and maintain CAMTS accreditation. Nearly 200 services have achieved CAMTS accreditation. For more information, visit www.camts.org.
