CAMTS Board Grants Two New Accreditations and Ten Reaccreditations at Fall 2026 Meeting

The CAMTS Board of Directors held its Fall 2026 meeting October 23-24 at the Omni Fort Worth Hotel in Fort Worth, Texas, where board members reviewed policies, advanced committee projects, and made accreditation decisions. Achieving CAMTS accreditation is a key milestone that reflects a program's dedication to excellence in medical transport. Accredited programs undergo regular, comprehensive audits to verify that they meet CAMTS standards and deliver high-quality patient care and safety.

On Sunday, October 25, CAMTS staff led the preconference session "Applying for Accreditation." CAMTS staff and board members also attended the Air Medical Transport Conference (AMTC) October 26–28. During AMTC, board members and CAMTS participated in the AAMS Abroad | Global Perspectives Roundtable, the Round Table Discussion on Neo/Peds, and the CAMTS Aviation Safety Advisory Committee.

The CAMTS Board awarded accreditations as follows:

Congratulations to the following new accreditations:

Johns Hopkins All Children's Hospital, FL	RW/G
Oklahoma Children's Hospital Air Kids, OK	RW/G

Congratulations to the following reaccreditations:

Arkansas Children's Hospital, Angel One, AR	RW/FW/G
Commercial Medical Escorts, FL	ME
Life Flight Network LLC, OR	RW/FW/G
Med-Trans Corporation, Region 3, TX	RW/FW
Metro Life Flight, OH	RW/G
PHI Air Medical – East Region, VA	RW
REMSA CareFlight, NV	RW/FW/G
Survival Flight Inc., AR	RW/FW
UnityPoint Health – Life Flight, IA	RW
Vanderbilt LifeFlight and Monroe Carell Jr. Children's Hospital at Vanderbilt, Neonatal and Pediatric Critical Care Ground Team, TN	RW/FW/G/SO

Accreditations (RW = Rotor Wing, FW = Fixed Wing, G = Ground, SO = Special Operations, ME = Medical Escort)

The Commission on Accreditation of Medical Transport Systems (CAMTS) is dedicated to improving the quality of patient care and the safety of the transport environment for services providing rotor wing, fixed wing, and ground transport. To achieve CAMTS accreditation, medical transport programs must adhere to CAMTS standards, developed and continually improved by a board of highly skilled and experienced safety and medical transportation professionals. Adherence to these standards, which are above and beyond regulatory requirements, is audited every three years to ensure program compliance and maintain CAMTS accreditation. Nearly 200 services have achieved CAMTS accreditation. For more information, visit www.camts.org.
