If you've had previous imaging elsewhere, please bring images to your appointment.

Preparation for Scans

Ultrasound

Ultrasound Abdomen

Nothing to eat, drink, smoke or chew gum for 8 hours before test.
Under 6 yrs old, no preparation required.

Ultrasound - Renal Kidneys and Bladder, Obstetric and pelvic

Empty bladder 1.5 hours before appointment and then drink 1 Litre of water in the next 30 min. A full bladder is required for this study.
Under 6 years old, 2 glasses of water before ultrasound.

CT Dual Source

CT Spine and Extremities

No preparation required.

CT Angiography, CT Coronary Angiography, CT Chest, Brain, Neck, Abdomen and Pelvis.

Fast for 3 hours prior to appointment time.
It's beneficial to drink 1 glass of water every hour whilst fasting.

DEXA

Please call if a recent bone scan or barium study has been performed.

Nuclear Medicine

Myocardial Perfusion Scan

No caffeine (e.g. Coffee, tea, chocolate and Coca-cola) 24 hours prior to study.
Exercise patients to wear comfortable clothes. Fast from midnight.

Parathyroid Scan, Gallium Scan

No preparation required.

Bone Scan, Lymphoscintigraphy

No preparation required.

Thyroid Scan

No preparation required. Avoid iodine contrast agent prior to study.

Captopril DTPA

Call for advice.

DMSA/DTPA Renal Scan

Well hydrated. If adult, drink 500 ml of water in 2 hours before the test.

MRI (Wide Bore)

If IV contrast is required, please fast for 3 hours prior to appointment time. It's beneficial to drink 1 glass of water every hour whilst fasting.

Appointment Time

Date

Whilst you are entitled to take this request form to another imaging provider, it would be advisable to respect your doctor's wishes and have your scan performed at Superscan. This will ensure you get scanned on new top of the line equipment and experience an outstanding service.
