

DESCRIPTION

Designed for use with Super Ten + and Super Fifteen + Under Slab Vapour Barrier products .

KEY FEATURES

- Excellent adhesion to maintain a moisture-proof seal.
- Provides continuous sealing along overlaps
- Performs in a wide range of temperatures
- Serrated, pinked edges for easy hand-tearability
- High adhesion provides immediate bonding with minimal pressure
- UV resistant/ Moisture resistant

STORAGE & APPLICATION

- Store in its original packaging in a clean, dry location away from direct sunlight, heat, and moisture.
- Keep at moderate temperatures and protect from freezing conditions.
- Apply tape to clean, dry surfaces free of dust, grease, oil, or other contaminants for best adhesion.

HIGHLIGHTS

- Thickness 6 mil
- Standard Size 4"x180'
- Tensile Strength 17.8 lbs/in width
- Adhesion to Stainless Steel 115 oz/in
- Elongation 900%
- Service Temperature Range 0 F to 104 F
- White Tape with Pinked Edge
