

# Maximize profits with automated appointment bookings

An automated, intuitive solution that follows your business rules to fill up your appointment book faster than your best receptionist.

## Automate decisions

Turn on Booking Wizard for unparalleled booking power. Just input your parameters, then sit back while the Booking Wizard suggests optimal appointment times - faster than your best receptionist.

Suggest appointment times even when services are not back-to-back

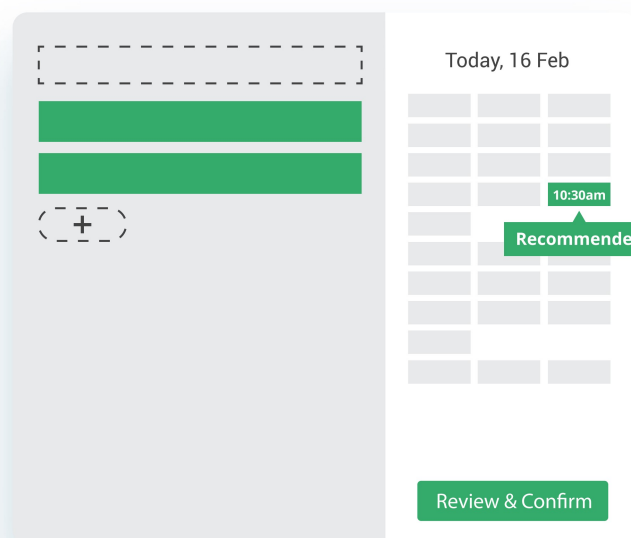

Quickly handles things like resource checks on room and equipment availability

Adjusts total appointment times when services share a common service segment

Easily finds a popular provider's next availability, even if it's weeks out

## Simplify bookings

Built-in logic handles multiple constraints for customized bookings.

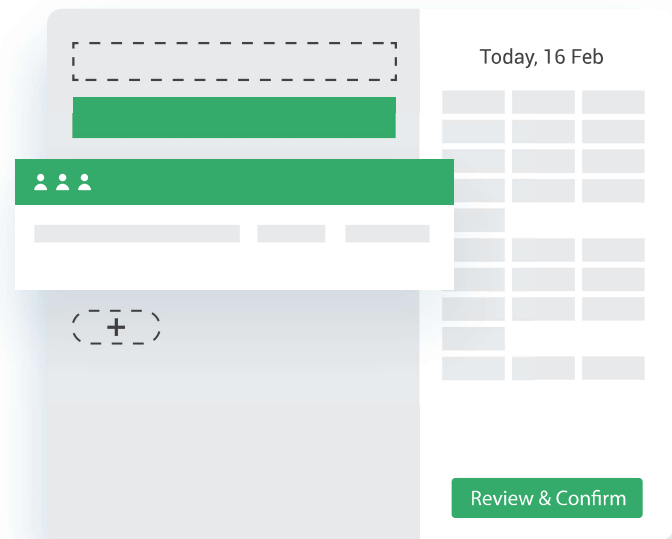

Easy bookings for couples, small groups, and large groups with more than 20 members

Book provider during their customer's processing time

Book services in a custom order (e.g. color before cut)

## Maximize profitability, enforce SOPs

Intelligent algorithms maximize your appointment book utilization while honoring SOPs to ensure employee satisfaction and optimized customer experiences.

Avoid unusable gaps in the appointment book

Allow (or restrict) double bookings

Suggest ideal rebook dates based on provider and room availability

Honor provider booking priority order and employee utilization order

Book appointments that extend past a provider's shift

**With the Booking Wizard, you're turning on a front desk expert who makes intelligent decisions based on your business logic.**
