

Smart reporting to drive better behind-the-chair decisions

Generate the insights you need for critical business decisions with reports that are comprehensive, accurate, and reliable. Zenoti Reports offers aggregated views of your entire business as well as filters for aspects like locations, service categories, sales types, and more. Customize reports to fit your own business needs.

Run your business like a pro

Unify your brand and operations. Instant access to your data helps you make quick decisions on inventory, sales, services, and employees. A reports dashboard and a “favorites” marking tool make finding specific reports easy.

Enhanced reports that work better

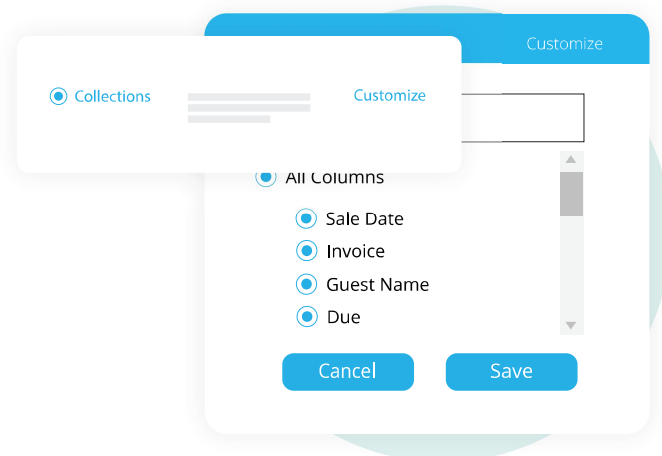

Different teams utilize different reports with metrics unique to their work, fostering better and faster decisions. Categorize reports by business domains like financial, operation, employees, guest engagement, marketing, inventory, leads, e-commerce/integrations, and more.

Tailor reports for different locations

Each region or franchise can monitor its business performance and payroll. Aggregate by center, zone, or organization.

Configure reports to suit your business needs

Summarize, filter, and group data based on information relevant to your business. Enjoy custom summary views and save filters to easily access your most important data.

Receive data your way

You can view Zenoti reports from the reports dashboard or through email inbox notifications.

All the reporting functionality you need

Location-specific reports

Generate reports for multiple locations.

Control access to information

Set user permissions to view different reports.

Column-level actions

Configurability helps the user perform better analysis.

Help guides included

Help guides highlight each report's key aspects.

Accrual & cash-based friendly

Easily reconcile information with accrual or cash-based reporting.

Authorization based emailing

Click on the email to get any report emailed with link-based auto-download.

Make faster, data-driven decisions on your sales, services, employees, and inventory with Zenoti Reports.
