

Connect with fitness clients anywhere, anytime

Manage virtual sessions with ease using the Zenoti Zoom integration.

Set up sessions effortlessly

Whether you conduct yoga classes or personal training sessions, the Zenoti Zoom integration makes it easy for your business to manage hybrid offerings.

How it works

Schedule a virtual class or appointment in Zenoti. The software will generate and assign a unique Zoom meeting link automatically.

Registered members receive join links in their preferred communication channel — via a booking confirmation email or text.

Instructors launch the session via the staff mobile app. Registrants can sign in and enjoy their session from your custom-branded mobile app or website.

Simplify attendance tracking

The Zoom Meeting Metrics Report lets you view and compare the number of registrants and attendees across classes, dates, categories, instructors, and locations.

The screenshot shows the 'Zoom Meeting Metrics' report for 'Fitness Seattle'. It includes filters for 'REGISTERED DATE' (Oct. 01, 2022 - Oct. 01, 2022), 'CENTERS' (All selected (5)), and 'ALL EMPLOYEES'. The table below lists various virtual sessions with their respective metrics.
