Gas, Confined Space and Flame Detection

Honeywell Technologies

Combustible & Toxic Gas Detection

- Point IR, open path IR and electrocatalytic hydrocarbon gas detectors
- SureCell electrochemical toxic gas detectors
- Smart transmitters offering Bluetooth, HART, Modbus, Foundation Fieldbus and relays

Optical Flame Detection

- Unique multi-spectrum optical flame detectors
- Exceptional performance and unmatched event diagnostics
- Patented WideBand Infrared flame detection technology

Blackline Safety

Gas Detection, Lone Worker & Evacuation Technology

- Always-connected safety devices deliver automatic gas detection, safety monitoring & real-time location technology with 4G and satellite communications
- Wireless configurability in Blackline Live web-hosted monitoring software, with automatic device updates
- Optional 24/7 professional monitoring by Blackline's in-house Safety Operations Center
- Integrated two-way voice (G7c only) and messaging

PortaGreen by Linde

Eco-friendly Calibration Gas & Calibration Kits

- Accurate, combustible and toxic calibration gases
- Available in various gas bottle sizes and concentrations
- Gas regulators, calibration caps and accessories

Water Analysis

Wedgewood Analytical

Smart Process Analytics for pH/ORP, Conductivity, and Dissolved Oxygen

- Reliable and Durable Sensors: Rugged, in-process sensors for pH/ORP, conductivity, and dissolved oxygen.
- Flexible Transmitter Options: Smart Digital EX and General Purpose Transmitters. Compatible with analog and Memosens smart digital transmitters.
- Cables: They come in various lengths up to 100 feet.
- Enhanced Safety and Convenience: We offer competitive pricing without compromising quality, along with fast delivery.

Hach

Water Quality Analyzers

- Analytical instruments measuring/monitoring ammonia, chlorine/ozone/CIO₂, hydrazine/carbohydrazide, nitrate, phosphate, silica, sodium, turbidity, and more
- Applications include feedwater, steam condensate, potable water, cooling water, waste water effluents, high purity water

Hayes™ Automation | Industrial Safety Equipment Supplier

Hayes Automation

Lab Chemicals and Reagents

- Reagents, buffers, standards for all water analysis needs.

Service & Installation

- Calibration
- Commissioning
- New Equipment Start-Up
- Preventive Maintenance & Repairs
- Annually, Biannually, Quarterly, and Monthly

Training
