Rigid Column

Type A Ceiling Column

The Rigid Ceiling Column Type A is made from stainless steel for sturdy and efficient delivery of services. It is optimized for a ceiling height of 9'6" but is build to order. It can accommodate pre-piped medgas outlets, electrical receptacles, and low voltage devices.

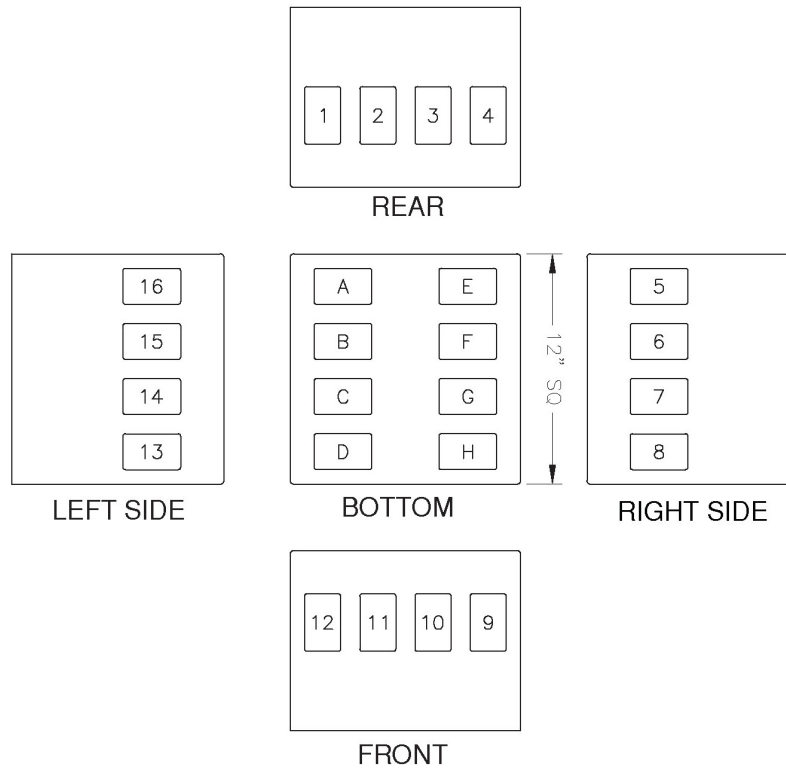

Features/Specifications:

- Sturdy and durable stainless steel construction
- Eliminates exposed wires and hoses that can clutter floors and cause tripping hazards
- Configurable and build to order to meet the customer's needs
- Can accommodate any medical gas key style
- Build to order in alternate sizes and with any configuration of services
- Maximum length 42"
- Available with stainless or powdercoated steel
